

MOONBEAM SPIKE

Lightcore

The Moonbeam Spike Spotlight delivers an outstanding light output with amazing efficiency – giving you high performance without any compromise. This compact fixture will comfortably light trees up to 15 metres high with either a wide 60-degree spread or with the optional narrow 30-degree beam. Perfect for large Australian Gums and where lots of light is desired. Constructed from high-grade aluminium with our TRITEC coating it has indisputable durability against the elements
